Non-ABDC Quality Journal List

Non-ABDC Journals on this quality journal list have been evaluated and assigned a Faculty Quality Ranking in an approved peer review process to identify journal outlets that meet the Faculty definition of quality used for Academic Research Performance Standards

As noted in the Process for Evaluation of non-ABDC Journals, the ranking assigned by the Evaluation Panel will remain in place for 5 years but will be applied in a way that no-one who has submitted a paper on the basis of the ERA 2010 ranking, prior to the review date, is disadvantaged.
